## QR Codes

You will find these QR codes throughout the HÅG catalogue. They will guide you to our website, for instructional videos and inspiration, to product information. Simply scan the QR code with a smart phone app.

A blurred background image of an office environment. Three people are visible: one standing on the left, one sitting at a desk in the center, and one sitting at a desk on the right. They are all wearing business casual attire. The image is out of focus, emphasizing the text in the foreground.

**ТНЕНА**

# HÅG MOV

You were not designed to sit still. But for life and activity. Yet our modern life style often comes with long and still office hours. Luckily HÅG knows a lot about creating movement. We provide seating solutions that animates you and your workplace. A HÅG chair will forever change your concept of sitting. At its core our unique BalanceMovementMechanism™ intuitively keeps you in balanced and continuous motion, without you having to think about it. A HÅG is crafted for tasks and for creativity. It is a fusion of Scandinavian holistic design, ergonomic philosophy and environmental pioneering. It is unlimited movement for people and businesses – The HÅG movement.

With every HÅG chair  
comes a small...

**REVOL**

When you sit in a HÅG chair it comes to life. Answering to your slightest move it intuitively keeps you in a balanced position and in continuous motion.

You will always feel free in a HÅG chair. It is ideal for today's dynamic and open workplaces where people regularly change working positions to adjust from solitary working, to team sessions, meetings and more.

A HÅG chair is always part of the daily action. It facilitates working close to your desk or engaging with colleagues — turning towards someone, leaning backwards, sitting sideways or switching chairs with a colleague. With every HÅG chair comes a small revolution, started by you, enjoyed by everyone.

#### HÅG OFFERS

- Outstanding holistic design
- Innovative seating

- Immediate comfort
- Unlimited positions
- Perfect balance
- Intuitive movement
- Improved blood circulation
- Increased energy
- Customisation
- Multipurpose functionality
- Simple adjustments
- Award winning design
- Long lifetime
- Low maintenance cost
- Sustainable products
- The highest quality standards
- 10 year guarantee

Greater than  
the sum of  
its parts

HOLISTIC

HÅG does holistic design. This means the final outcome is greater than the sum of its parts. This is how we think and develop.

Starting out from our four cornerstones – quality, ergonomics, environment and visual design – we focus on each of these individually. Considering all these aspects of a product, is what makes it holistic design. Addressing specific challenges, exploring opportunities, making decisions. When we combine the parts, they come together as a greater whole. As a finalised product. HÅG designs for people, their workday, their need for movement and variation. User experience, your needs, satisfaction and comfort are always our core priorities. Because only you can complete the circle. And bring our chairs to life.

### **All through satisfaction**

Enjoy what you touch and see, sit comfortably, sit actively, work creatively. The HÅG quality standards are high and set on your satisfaction.

Focusing on impression, tactility, functionality, movement, shapes and detailing, we aim to be the perfect choice for your senses.

### **AWARD WINNING QUALITY**

### **At the forefront**

HÅG is a documented pioneer in environmental performance. Always aiming to do more with less. Using components from recycled aluminium and recycled PP, reducing the carbon footprint to an absolute minimum. Today we are very near our goal of only using recyclable materials.

### **ENVIRONMENTAL PIONEER**

# C DESIGN

### **DYNAMIC ERGONOMICS**

#### **In perfect balance**

Balance is always the best starting point for movement. A HÅG chair intuitively keeps your body in balanced motion, vivid and ready for its next move. A HÅG chair is crafted for tasks and for creativity. Animating you and animating your workplace.

### **VISUAL DESIGN**

#### **From the inside and out**

HÅG has received numerous awards for its design work. We believe this is not only because our chairs look good, but also because we relate to real seating needs. Looking to be in sync with how you really live and work. Presenting you with wide and adaptable collections.

Movement is life. Natural, nourishing, healing. But as our working days include more sitting, movement and variation – while sitting – has become vital.

At the core of a HÅG chair, our unique BalancedMovementMechanism™ works to intuitively keep you in balanced motion without having to think about it. A HÅG chair inspires you to vary your postures. Not only your body and arms, but your legs as well. Often these remain static with feet parked on the floor. As the legs are essential for the blood circulation, this affects your entire system, your creativity and work performance.

# The workings of the BalancedMovementMechanism™

**BALANCE IS THE BEST STARTING  
POINT FOR MOVEMENT**

A centrally placed tilting point means that you are in balance. And this is the best starting point for movement.

As the seat and the backrest are linked together, the seat front rises when you lean backwards and stimulating ankle movement. This in turn activates your blood circulation.

The seat lowers as you lean forward towards your desk to work.

Keeping you animated  
throughout the day

Active sitting requires perfect balance. The BalancedMovementMechanism™ is unique for HÅG and works on the whole body.

HÅG has chosen a different approach to sitting. This is what happens: In a HÅG chair the front edge of the seat tilts upwards when you lean backwards, and down when you lean forwards. The FootControlled-Movement™ stimulates ankle movements that activates the essential venous pumping mechanisms in your lower legs ("the peripheral heart"), increasing your blood circulation. Keeping you awake, alert, collected, creative, animated. Everything you need to be during your work day.

# HÅG is a documented pioneer in sustainability –

both within quality standards and environmental performance. We never compromise on either.

SUSTAINABLE

HÅG's quality standards are high. Products are tested in accordance with a number of international quality standards for functionality, dimensions, finish and durability. And we always excel. HÅG is also resolved to remain a sustainable development pioneer.

Every HÅG chair is designed and manufactured according to five basic life cycle principles. HÅG SoFi, our newest chair is a testament to our green development ethos. Today it is the most sustainable task chair collection in the industry, compared to other chairs with similar functionality and comfort. Components mainly consist of recycled and recyclable material. We do not use any harmful chemicals. And no glues. Our aim is to continue as best in class.

## OUR BASIC PRINCIPLES OF SUSTAINABILITY

1. Low weight
2. Few components
3. Good materials
4. Long lifetime
5. Cradle to cradle closed lifecycles

## MINIMIZED ENVIRONMENTAL IMPACT:

- I Lowest possible "Carbon footprint"
- II No toxic chemicals
- III Reduced use of non-renewable resources

MINA RE

**HÅG SOFI IS AT THE FORE-  
FRONT OF DEVELOPMENT**

- Backrest shell in recycled PP (Polypropylene)
- Replaceable textiles without the use of specialist tools
- Environmentally friendly paints – silver, black, white
- Armrest tops in recycled aluminium
- Seat shell & covers in recycled PP (black)
- Armrest stem, traverse and footbase in recycled aluminium

# Stand out and Fit in

## CASUAL

For those who feel at home at work. The casual HAG SoFi is for the informal work spaces. Using soft toned textiles and subtle contrasts, creating an unpretentious atmosphere, an overall comfortable and likeable expression.

## EDGE

This HAG SoFi makes a statement. A fashionable look for the colourful work environment, trendy and a bit daring. HAG SoFi – a chair that surprises, using contrasting colours to accentuate details and lines. With a playful attitude it challenges and inspires.

#### FORMAL

HÅG SoFi is striking and timeless in a conservative cut. In this clean and coherent appearance, surfaces, colours and details connect to blend in or to make an impression. Always creating a sophisticated look.

Whoever you are, whatever your needs – prepare for a small revolution.

Attract, captivate, inspire. The HÅG SoFi is – as the name implies – designed to be styled to Stand out and Fit in according to your needs. Ranging in appearances from subtle, refined and coherent to expressive and daring. There is a wide variety of models, materials and colours to choose from and combine.

To be seen, felt and sensed –  
HÅG SoFi is a visual, tactile  
and exclusive up-close  
experience.

Perceived quality through  
tactile surfaces.

Subtle and refined appearance.  
Coherence in materials  
and colours.

Inviting and generous  
surfaces, inner adjustable  
lumbar support.

BalancedMovementMechanism™  
by HÅG inBalance™.

Shapes are carefully designed  
from all angles. Visual balance  
between backrest and armrests.

# HÅG SoFi has it all

HÅG SoFi is easily customized to give individual appearances.

Sleek headrest stem.

Easy adjustment through high end, tactile controls

Intuitive adjustment of seat height and seat depth.

Uniqueness and wide appeal, the HÅG SoFi collection has it all. It collects and perfects all the best design features representative of the HÅG brand. Experience HÅG SoFi.

Ranging in appearances from quiet to expressive, it can stand out and fit in with any work environment. Adding style or simply adding presence, according to your needs.

Sitting in a HÅG SoFi, its embracing shapes create a sense of privacy as well as space for collaboration. At the core the Balanced-MovementMechanism™ answers to your slightest move and keeps you in balanced and continuous motion. The innovative HÅG SlideBack™ features a comfortable armrest. Levers and handles are intuitively placed, easy to find and adjust.

HÅG SoFi has it all. It is a manifestation of holistic Scandinavian design. The best of ergonomics, sustainability, quality and visual design in a complete package. Prepare for a small revolution.

## ARMREST INNOVATION

The HÅG SlideBack™ multi functional armrests.\*

\* The HÅG SlideBack™ multi functional armrests display a functional slide back feature. Armrests move backwards in a straight linear movement. Simply push back and park. Now you can also sit sideways. The armrests also easily transform to generous elbow rests.

Established in 1943, HÅG has been designing and developing unique sitting solutions for private and public sector office environments since. We've done this together with some of Scandinavia's most decorated designers. We are happy and proud that our collaborations have bestowed us numerous prizes and design awards.

*HÅG Sideways challenges our traditional opinions of what a chair should be with an innovative twist.*

## Trusted and awarded.

Established in 1943 HÅG has designed and developed unique sitting solutions for private and public sector office environments since. Today it is a leading European brand that has received many prizes and awards. Among these the prestigious Red Dot Award, the Green Good Design Award, the Award for Design Excellence, the Norwegian Design Council's Environmental Award and the Innovation Award from the Preventica fair, France.

HÅG is owned by Scandinavian Business Seating, one of Europe's largest manufacturers within design, development and production of office chairs. Within the group are also the brands RH and RBM. Common to all brands is the focus on visual design, ergonomics, quality and environmental performance. One of Scandinavian Business Seating's core principles is that we have responsibilities

beyond simply earning money: We want to contribute to preserving our common environment and to display social accountability.

Scandinavian Business Seating is located in Oslo with sales companies in Denmark, Sweden, UK/Ireland, Germany, the Netherlands, France, Switzerland and Singapore. Røros is the place of our birth and we have a long history in this community. All HÅG products are today manufactured at Røros, and Scandinavian Business Seating is currently one of the largest employers in this area. Production facilities are at Røros, Norway and Nässjö, Sweden. Together with its employees and customers the company aims to make the world a better place to sit.

\*\*Also available with high back (73x0)

# HÅG CAPISCO®

## THE SADDLE CHAIR™

### Up and down.

HÅG Capisco is inspired by the horse rider's saddle and sitting posture. No one sits as actively as a rider in the saddle. When you work seated on a HÅG Capisco, you'll be inspired to greater freedom of movement, variation and new natural sitting positions. HÅG Capisco allows you to sit as high or low as you want. No other task chair adapts so well to work surfaces of different heights. Sit down and adjust it from a normal table height to a sit-stand position.

Its award-winning design fits into creative meeting rooms and any other place where you want to work and move in different ways. It's also a great chair for dentists and surgeons who work in semi-standing positions, or when used back-to-front so that the back panel supports the chest. Experience the numerous benefits of this unique sitting solution.

HÅG Capisco model 8106 was the world's first task chair to be granted the right to use the official Nordic eco-label, the Swan.

Design: Peter Opsvik.  
Patent- and design protected.

No other task chair adapts so well to work surfaces of different heights.

**ADJUSTABLE HEIGHT**

The chair can be adjusted from a low sitting position to a sit-stand position.

**FOOT SUPPORT**

Provides a comfortable way to vary the position of your feet.

**THE SADDLE SEAT**

The unique shape of the seat inspires movement and new sitting positions.

**HEADREST (OPTIONAL)**

The headrest gives you rest and support for shoulders, neck and head. The gap between the chair and the headrest allows more freedom of movement.

**HÅG STEPUP® (OPTIONAL)**

Provides two extra levels for placing your feet.

**HÅG FOOT RING (OPTIONAL)**

Extra level for rest and support for feet.

**ADJUSTMENT FEATURES**

- Headrest
- Seat height
- Seat depth
- Back height
- Backward tilt tension
- Lockable tilt

# HÅG FUTU®

## Elegant & intelligent.

HÅG Futu provides the best of two worlds; an advanced interior based on HÅG's inBalance® technology, and an exciting, streamlined exterior that gives flexibility when used in different rooms and for different applications. With its clean, continuous lines HÅG Futu can be perceived more as a piece of furniture than a technical aid. It is designed to be in harmony with its surroundings.

Even though HÅG Futu is a fully functional task chair, it nevertheless lacks long dominating levers and unattractive adjustment wheels that disturb the visual expression. It is simple, easy to use and just as well suited to large office environments as to individual work spaces.

Design: HÅG Design Studio, facilitated by Marianne Støren Berg and Leif Isachsen/KODE Design.  
Patent- and design protected.

With its clean, continuous lines HÅG Futu can be perceived more as a piece of furniture than a technical aid.

**ARMRESTS (OPTIONAL EXTRA)**

Can easily be adjusted for both height and width

and robust task chair.

# HÅG H09® MEETING

HÅG H09 Meeting has a high back and features HÅG's BalancedMovementMechanism™. The height of the seat can be adjusted and the chair also features an adjustable lumbar cushion for optimal comfort and support during long meetings. The footbase/gas lift is available in matt black or polished aluminium.

Design: Svein Asbjørnsen/sapDesign®.  
Patent- and design protected.

## STYLES

HÅG H09 Meeting Excellence 9372 is available in Antigo Soft leather or in exclusive Vadal Uni wool.

HÅG H09 Meeting Inspiration 9272 is delivered with a mesh back in Space or Lumina. The seat is available in Antigo Soft leather, Shimmer or in shiny worsted Tex Uni wool.

## FUNCTIONS

- Tilting forwards and backwards that ensures variation and movement.
- Adjustable seat height.
- Movable back support cushion that is easily adjusted with a simple handle.
- The smaller footbase means there is more space around the table and greater freedom of movement for the participants.
- Footrest for support and variation.
- Special armrests (optional extra) can easily be height- and width adjusted.

## OPTIONAL EXTRAS

- HÅG H09 Basic armrests (with height and width adjustment)
- Footbase with sloping foot plates in polished aluminium
- Footbase in black (85 mm wider than the standard HÅG H09 meeting room model).

## AWARDS

## AWARDS

# HÅG SIDEWAYS®

## Furnituristic.

This is a chair that really takes modern meeting culture seriously. HÅG Sideways has taken Scandinavian furniture design another step forwards. Sitting down. This revolutionary meeting chair is comfortable no matter which way you twist or turn. The seat has been designed for maximum seating comfort and provides excellent freedom of movement. The armrest curls around the back of the chair as an invitation to support and rest whenever sitting sideways is needed.

Design: Formel Industridesign and HÅG.  
Patent- and design protected.

Comfortable no matter which way you twist or turn.

### SEAT SHAPE

Large and comfortable seat shaped so that sitting sideways feels as natural as sitting straight forward. Provides comfort, variation and movement in a natural way in the meeting room.

### ARMREST

The armrest can be used to rest and support your forearms or to help you move the chair back and forth.

### CHOICE OF COLOUR

#### – PLASTIC/TEXTILE

The plastic back of HÅG Sideways is available in different colours. Upholstered parts are available in a large number of materials and colours from our HTC collection. HÅG Sideways 973x also has its own especially designed textile, Softgrid™, available in four different colours. See your HÅG dealer for colour samples.

### STAR BASE

In polished aluminium (model 97x2).

### SKID-BASE

In stainless steel (97x0).

### FEATURES

**Balanced tilt:** provides movement and variation

**Memospindel** (optional extra for (97x2): the seat swings back to its original position when you get up. Ensures uncluttered and presentable environment.

**Stackable:** the models with Skid-base models (97x0) can be stacked.

# HÅG CONVENTIO®

Wake up. Without a single drop of coffee.

Meetings and conferences can be extremely static and tiring. The good news is that they don't have to be anymore. Like HÅG Conventio Wing, HÅG Conventio has been especially designed for meetings and conferences and encourages varied sitting positions and movement. This releases energy and keeps your mind clear and focused, even during less interesting meetings. Sit down and wake up. HÅG Conventio has the same properties and mobility as HÅG Conventio Wing, and is well suited as a general purpose chair for conferences, schools, universities, libraries, canteens, cafés and hotels.

Design: Peter Opsvik.  
Patent- and design protected.

Releases energy and keeps your mind clear and focused, even during long meetings.

**REMOVABLE COVER**

Can be removed for cleaning or replacement. Available for HÅG Conventio models: 9510, 9511, 9520 and 9521.

**WIDE VERSION (9511 AND 9521)**

4 cm wider than 9510 and 9520.

**STACKABLE**

10-15 chairs can be stacked on top of each other.

**OPTIONAL EXTRAS**

Armrests.

Chair hanger.

Connecting device: ensures easy linking.

**Writing tablet:** right-handed with black plastic tablet and aluminium arm. Fold down tablet for safe escape and stacking of chair. BIFMA approved.

**Trolley:** moving a stack of HÅG Conventio chairs has never been easier.

HÅG Conventio 9511

 Where a chair is adjustable, minimum and maximum measurements are listed.  
 Please note that these measurements are not absolute. They may vary slightly from chair to chair.  
 \* Measurements with armrests (armrests are optional on HÅG Conventio 9512).

## AWARDS

# HÅG CONVENTIO WING®

## A solid lightweight.

HÅG Conventio Wing is a dynamic chair that is especially designed for meetings and conferences. The integrated rocking mechanism inspires movement and variation. This improves the ability to concentrate as well as the performance of your employees or audience. HÅG Conventio Wing is constructed from lightweight materials that can withstand heavy use. Simple maintenance makes the chair well suited as a general purpose chair for conferences, schools, universities, libraries, canteens, cafés and hotels. Moreover, the wing-shaped back gives the chair a fresh shape and makes it extra robust.

Design: Peter Opsvik.

Patent- and design protected.

A dynamic chair especially designed for meetings and conferences.

#### REMOVABLE COVER

Can be removed for cleaning or replacement. Available for all HÅG Conventio Wing models.

#### THE FIVE STAR BASE

Models with five star base are height adjustable and provides support for alternative positions of the feet. HÅG Conventio Wing 9812, 9822 and 9832 are models with five star base.

#### CHOICE OF COLOURS

The seat and back of the HÅG Conventio Wing are available in Black, Grey, White, Red, Yellow-Green and Blue-Grey.

#### STACKABLE

10-15 chairs can be stacked on top of each other.

#### OPTIONAL EXTRAS

Armrests.

Chair hanger.

**HÅG writing tablet:** right-handed with black plastic tablet and aluminium arm. Fold down tablet for safe escape and stacking of chair. BIFMA approved.

**Connecting device:** Ensures easy linking.

**Trolley:** Moving a stack of HÅG Conventio Wing chairs has never been easier.

**Chair suspension:** To be mounted on the underside of a table top for convenient hanging of chairs; clears floor space and makes cleaning easy.

## AWARDS

# HÅG TOTAL COLOUR™ STANDARD

HÅG Total Colour (HTC) Standard is our collection of fabrics, leather and other materials. The collection has been designed to bring out the best visual and functional qualities of these materials. All fabrics and leather in our HTC Standard collection are of excellent quality and have a minimum abrasion resistance of 80,000 Martindale cycles.

We offer short delivery time, favourable pricing and all our materials comply with strict environmental requirements. To maintain fabrics and leather, please vacuum with a furniture brush or wipe with a clean, white cloth or sponge slightly dampened, with lukewarm water.

Collection	Material	Martindale	Guarantee
Antigo Soft	Semi-aniline leather	-	10 years
Comfort+	88% polyester, 12% polyurethane	150,000	10 years
Fame	95% wool, 5% polyamide	200,000	10 years
Nexus	100% polyester	100,000	10 years
Remix 2	90% worsted new wool, 10% polyamide	100,000	10 years
Shimmer	80% worsted new wool, 20% polyamide	104,000	10 years
Steelcut Trio 2	90% worsted new wool, 10% polyamide	80,000	10 years
Tex Uni	92% worsted new wool, 8% polyamide	108,000	10 years
Vadal Uni	92% virgin wool, 8% polyamide	102,000	10 years
Xtreme Plus	100% recycled polyester FR	100,000	10 years

Information about the price groups is available in our price list.

## ANTIGO SOFT

Classical, high-quality semi-aniline leather. Excellent friction and breathing properties. Antigo Soft is tanned without using chromium salts and is an environmentally friendly product. The surface may feature scars and marks resulting from insect bites etc, these are proof of the natural origin of the product and are part of its character.

## COMFORT +

Comfort + has a uniform stretchability and excellent non-pilling properties. A unique combination of fibres giving a durable soft surface.

## FAME

Fame is a tightly woven fabric of worsted wool and polyamide, combining excellent durability and incredible softness.

## NEXUS

Nexus is a polyester knit in a sleek and stylish pinprick dot matrix design effect giving a granulated structured surface. The black yarn foundation highlights the structured surface in combination with fresh but subtle colours.

## REMIX 2

Remix 2 is a strong fine woven fabric in worsted wool and polyamide made from melange yarns. The mix of several coloured threads gives an irregular surface with subtle contrasts in structure and colour.

## SHIMMER

Satin-woven worsted wool combined with polyamide. The weave and fibre combination yields an irregular, glittering effect.

## STEELCUT TRIO 2

Steelcut Trio 2 is a strong worsted wool and polyamide woven fabric, made with three different coloured yarns. The colours and the special weave create a three dimensional surface where the colours seem to change depending on the angle of perspective.

## TEX UNI

Tex Uni is made of satin-weave, high-quality worsted wool that gives a slightly shiny finish.

## VADAL UNI

High quality, fine felted wool fabric with an inviting appearance and a warm touch.

## XTREME PLUS

Xtreme Plus is a FR crepe fabric made from 100% recycled polyester that features exceptional Euro flammability performance. Extra stretch and structure gives an irregular, shiny finish.

If you cannot find what you are looking for in our HTC Standard collection, we offer a comprehensive range from our HTC Extended collection.
